

UK IPv6 Council

Veronika McKillop

9/9/2014 @ UKNOF29

Yet another IPv6 institution?

- Memories of 6UK are fresh
- UK IPv6 Council \neq 6UK
- Established after a request from IPv6 Forum
 - V6 World Congress in Paris (March 2014)

What is UK IPv6 Council?

- Non-profit organisation
- Technology User Group
 - Inspired by Belgium IPv6 Council
- The aim is to:
 - Bring together a community and enable dialog
 - Develop sense of togetherness and share knowledge

Vision

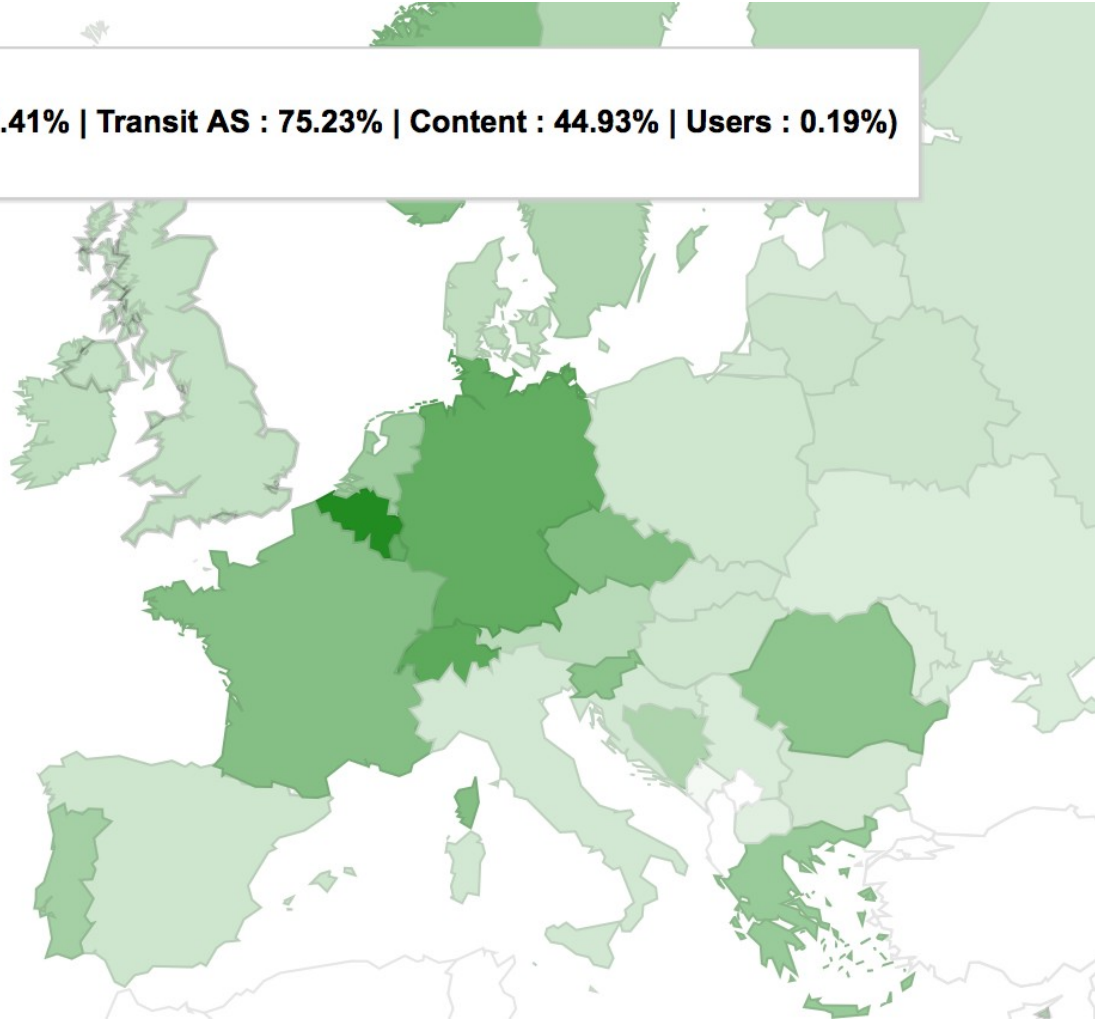

- Create an environment for technical and business people from enterprise/public sector/SP that enables sharing of information, business cases/drivers and experience with IPv6 deployments
- Work with other organisations to make UK IPv6 activities visible in the UK and an international level
- Change perception of the UK as an "IPv6-negative" country

UK IPv6 Adoption

United Kingdom

IPv6 Deployment: **21%** (Prefixes : 37.41% | Transit AS : 75.23% | Content : 44.93% | Users : 0.19%)

Relative Index: **2.6 out of 10**

What would success look like?

- People inspired/encouraged by engaging in UK IPv6 Council, will (re)start IPv6 projects in their own organisations
- Assigned IPv6 prefixes will start to be used
- IPv6 traffic in the UK will grow

Council Board Members

- ISP
 - BSkyB, BT, Virgin Media
- Enterprise
 - Cisco, Glaxo Smith Kline UK, a large financial organisation
- Academia
 - University of Southampton, JANET
- Industry body
 - Institute of Engineering and Technology
